CARE & MAINTENANCE

Vacuum the floor to remove dirt and debris, and use a slightly damp (but not wet) mop for regular cleaning. Do not use oil soaps, liquid or wax products or other household cleaners that contain citrus or ammonia. For preventative care, entrance mats and rugs in high wear areas should be considered, together with felt protectors for furniture and appliance legs. High heeled and spiked shoes should not be walked on the floor and heavy objects should not be dragged across the floor.
